Make your brand stand out with omni custom tape

Custom printed machine tape

Custom printed tapes have a wide variety of applications and use. Since it is primarily a tape, it is mainly used for carton sealing, temporary bonding, and package security. Machine tapes, including those custom printed, can also be used with your in-line tape machines for safe and efficient industrial sealing.

Custom printed gummed tape

The printed gummed tape has a water-activated adhesive, ideal for heavy-duty carton sealing applications. This environmentally friendly 100% recyclable paper tape is an effective and sustainable way to promote your brand. Available in two grades: regular, or reinforced which has cross-woven filaments to increase tensile strength and to prevent unnecessary tears.

Custom printed protection tape – residue free

The Omni printed protection tape is ideal for removalists and the furniture and building industry. This tape is a great advertising tool as well as labeling cautionary messages and handling advice.

Custom printed perforated tape

Custom printed tape can be perforated to various lengths that can be torn off by hand. Perforated printed tape is a very cost-effective alternative to regular labels. It is a great advertising tool as well as communicating cautionary messages and handling advice to transporters.

Custom printed packaging tape

Omni Group is Australia's leading manufacturer of custom printed tape. With onsite tape printing facilities, we offer a same-day printing service. Omni printed tape is an excellent promotional and brand awareness tool. Showcase your brand and logo at every touchpoint.

Custom printed paper tape

We can custom print any logo or message on paper masking tape in natural kraft paper. Flat backed paper tape is also known as picture framing tape. This tape has a thick kraft paper backing and an ultra strong adhesive.

Custom printed barrier tape

Printed barrier tape is used for the temporary cordoning off of hazardous areas. This barrier tape is non-adhesive strong LDPE plastic. Barrier tape often has a brightly coloured two-tone strip to catch attention. We can custom print any logos or cautionary messages on barrier tape.
